**Shetkari Shikshan Prasarak Mandal's**

Bhagwan Mahavidyalaya (Arts, Commerce and Science) Ashti, Dist Beed
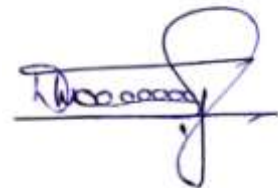

Department Of Computer science

Program Specific Outcomes

PSO-1: Know the generation languages, organization, and basic component of the computer and working of each device.

PSO-2: Understand the concept of Number System, Logic Gates, Boolean Laws, Theorems, flip flops and counter.

PSO-3: Understand the structure and functionalities of an Operating System and the concept of process.

PSO -4: Understand the fundamental of C programming.

PSO -5: Study of advanced concept of C programming and computer Graphics Technologies.

PSO-6: Introduce fundamental concept of data structures and design linear data structures stacks, queues and linked lists.

PSO-7: Apply the Understand object oriented features and C++ concepts.

PSO-8: Use SQL for database management and understand DBMS concepts, data models and Architecture.

PSO-9: Understand basic concepts of software engineering compare different software engineering process models and create architectural design for a given project.

PSO-10: Develop Web based applications by HTML, JavaScript and CSS to have an interactive application.

PSO-11: Study of various standard networks models and understand various guided transmission media.

PSO-12: Define e-commerce and identify some business applications of e-commerce and identify the strategic goals of e-comm
