Provide Timely Feedback: Feedback is crucial for students to understand their strengths and weaknesses, and to improve their performance. Institutions should provide timely feedback to students, not only on their grades but also on their assignments, projects, and overall performance. This feedback can be used by students to improve their learning strategies and can also motivate them to perform better. Additionally, institutions can also gather feedback from students to understand their needs and expectations, which can help in improving the overall teaching-learning experience.
